

OTAVA CLASS 4A

Our class has 28 children and in some subjects we study in two groups. Some of us take a bus or a taxi to and from school.

Our class is active, wild and lively. Some of us have sometimes difficulties in being silent.

We have both brunets and blonds in our class. All the girls are nice and nobody is shy. Everybody knows how to write and read! We are good at PE, art, technical work and eating.

Our teacher is nice, her name is Marja Junkkarinen, and we also have an assistant called Lotta to help us. We are a noisy but a good and nice class! We have a good team spirit.

On our breaks we skip rope. Sometimes we are allowed to use the computers. Our classroom is downstairs in our school building.

In Finland we have only a little snow now. We hope to have more snow but who knows?

And here we are:
